genuine mercruiser package is the ideal replacement engine for 350 mag mpi 330hp black scorpion or 454 mag mpi engines rated at 400hp crankshaft standard equipment included in, i have a 2000 21v with 350 mag mpi mie boat seems to run fine when just cruising with a few people but once i try to pull tubers or wakeboarders there s a significant loss of power on the low end and struggles mightily to get above 15 20 mph fresh gas changed cap rotor plugs amp wires and mixed in seafoam any help tremendously appreciated, 350 mag mpi fuel pressure findings sign in to 248 posts location chesapeake bay md posted august 22 2012 hooked up my fuel pressure gauge today to see what i was getting saw 26psi at idle and 34psi under load at wot i m trying to diagnose why my wot rpm is only 4 000 it would appear my fuel pressure is low by approx 21 share, i would guess its a fuel pump issue if you can get your hands on a fuel pressure gauge hook it up to the fuel rail and run the boat at the higher rpms and see if fuel pressure drops off at that point some of the real mechanics may chime in here and be able to tell if it s the high or low pressure pump but that s what i would check next, 133 results for mercruiser v8 fuel pump see more like this high amp low pressure electric fuel pumps for mercruiser v8 861155a1 amp 861155a3 see more like this electric fuel pump fits mercruiser 350 mag
