Devon and Cornwall and Dorset police forces
Two chief constables have outlined plans to merge their police forces after two years of closer working. The bosses of Devon and Cornwall and Dorset see it as the only way forward amid The privacy risks of compiling mobility data MIT News

A study finds merging massive anonymized mobility datasets about people’s movement patterns in cities can put private data at risk, making it easier to discern user identities. The work comes from MIT’s Future Urban Mobility Group Senseable City Lab and Singapore MIT Alliance for Research and Technology.

By merging their information technology (IT) and operational technology (OT) domains, they create Four Technologies for Industry 4.0. Table of Contents

The evolution and development of police technology. This publication contains both an overview and full-length versions of our report on police technology. Publishing the two versions together accounts for some duplication of text. The overview is designed to be a brief survey of the subject. The technical report is meant for readers seeking detailed information.

The Office of Science and Technology (NIJ) evaluates methods that law enforcement agencies and courts routinely use. Finding new ways to approach common crime, public police can evaluate better ways to conduct lineups and provide better guidance for bomb squads responding to vehicle explosives.

For example, when a smaller hospital merges with a larger, better-equipped hospital, patients at the smaller hospital may acquire better access to specialists and advanced medical technologies such as high-tech imaging procedures and electronic medical record systems.
