I have a 2002 Chapparral with 4 3 V6 and Alpha 1 outdrive
March 1st, 2019 - I have a 2002 Chapparral with 4 3 V6 and Alpha 1 outdrive. It is leaking a little gear oil where the lower unit bolts to the upper. I had to add a little oil to the reservoir. I checked the oil level in the outdrive, it is full and not milky at all. So there is no water in the oil.

I want to remove the upper shift shaft rod which is about
December 14th, 2018 - The upper shift shaft rod in my terminology to be clear is were the lower shift shaft rod male end connects up and into the female end and the rod is about 20 inches long up to the top and it connects to a bellcrank which is actuated by the push pull shifter cable. Looks like I have to remove it from the top which is blocked by the powerhouse.

BoaterEd Mercruiser shift shaft
April 21st, 2019 - I'm really confused. I had to remove the OD to replace a seal which wasn't properly installed. But that's another story. Shifter is in F and the shoe is in the 12 o'clock position to line up with the shaft. 12 o'clock is F, 11 o'clock is N, and 10 o'clock is R. Prop is locked in the CW position.

How to Install Your Mercruiser Propeller with Pictures
October 4th, 2017 - Cleaning and greasing the propshaft will make it easy to remove later on failure to grease the shaft can cause the prop to be stuck on the shaft. Mercruiser sells a neat floating propnut wrench which is good to keep on board. Keep a spare Flotorque II hub sleeve kit on board as well as a propeller wrench in case you spin a prop hub from impact.
