Locating Water Temperature Sender on a Mercruiser 5.7 LX
April 17th, 2019 - Hi. The temp gauge is not functioning on Take Five and I have been given some info on testing it by another forum member. Do any of you know where the Temperature Sender on a Mercruiser 5.7 LX is located? Any help appreciated as always. Thanks.

I have an Alpha One V8 5.0L 205 Hp. The temp gauge is acting erratic. It reads normal until about 15 minutes of operation then it pegs high and won’t come back down even after bringing it back to idle for 10 minutes or so. There appears to be two temp sensors in the stat housing.

Engine Temp Sensor Location & Information Page 1 iboats
April 9th, 2019 - Re Engine Temp Sensor Location & information. From what I understand you should be covered. If say the t stat gives way there would still be water in the block hearing up the motor and the temp sensor. If the impeller gives way or a plastic bag gets sucked up the no low water pressure sensor will sound the alarm. Bondo. Does that sound correct.

Mercruiser 350 Riser Overheating Page 1 iboats Boating
April 18th, 2019 - Re Mercruiser 350 Riser Overheating. Yes it is a hull exhaust system. I was the last person to install the risers put new gaskets on as well and I don’t hear or see any water going into the wrong places I will check what the temp of the water coming out is today as well as the impeller.
